

### PRO 9701 – Cat5e/6 dual screen receiver for UXGA, Component HD, S-Video, Composite Video and Stereo Audio

- Light weight aluminum enclosure 120mm x 80mm x 25mm
- Dual screen outputs on 2 x HD15 sockets
- Adjustment for cable length and video gain

#### General Description

The PRO-9701 can be used in conjunction with the PRO 9000 (8x8 switch), the PRO 9702 (single port transmitter) or the PRO 9705 (four port transmitter). It is housed in a light weight aluminum enclosure and is powered by a 12V plug top mains adapter. Adjustments are provided for cable length and video gain to maximise picture quality.
