

PRO-9705 – Cat5e 4 port transmitter for UXGA, Component HD, S-Video, Composite Video and Stereo Audio

- Light weight aluminum enclosure 120mm x 80mm x 25mm
- Local video and stereo audio outputs
- Transmits up to 4 high quality signals

General Description

The PRO-9705 is powered by a 12 volt plug top adapter. Up to 4x PRO-9701 receivers can be used and 40 x PRO-9703 high impedance taps in a single installation, making a total of 88 screens displaying the same media information.

Each transmission circuit will delivery high resolution video and stereo audio to receivers connected by up to 300M of Cat5e/ Cat5 cable.
